

New HealthTracks® Features Available To You Today!

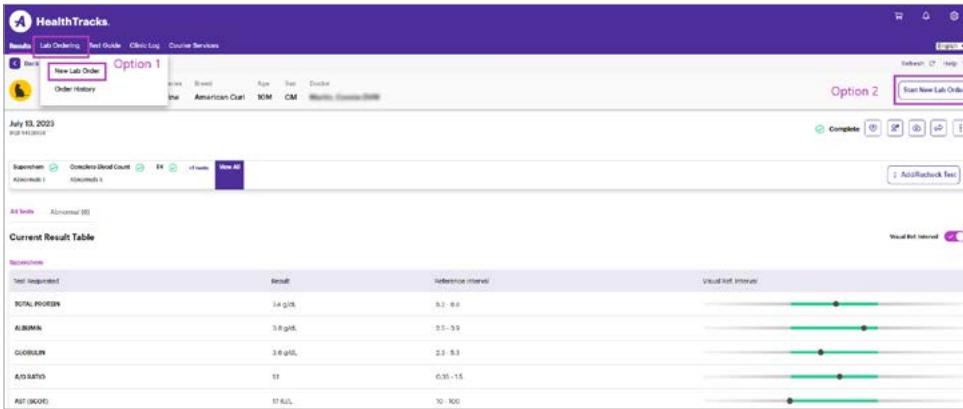

New tools to manage your practice results and communications

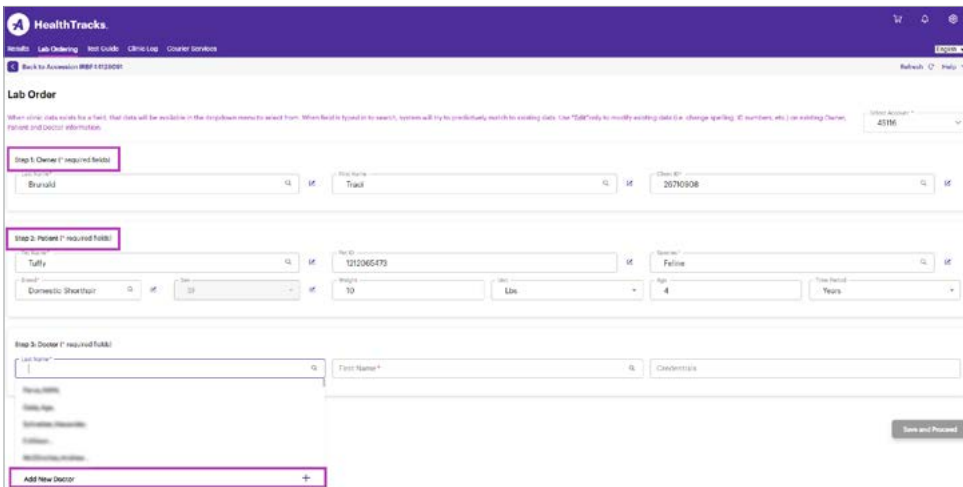

- Quick filters to help you identify unread emails or results that have not been imported or downloaded.
- Results view status can be changed from unread/read.
- Results can be resubmitted to your Practice management system as needed.
- Clinic logs and accession logs allow you to quickly verify if you submitted an add-on, recheck, emailed results, and get details on that transaction.

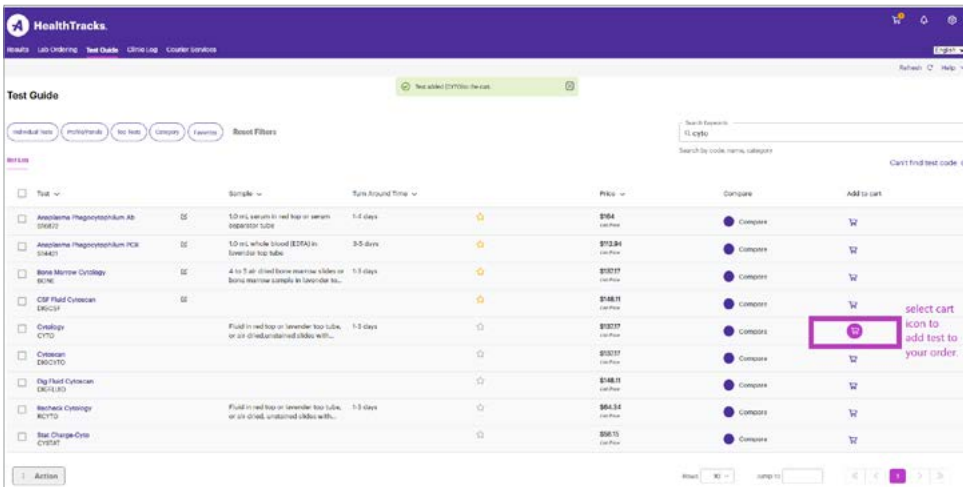

You can now order your Antech Diagnostics within HealthTracks

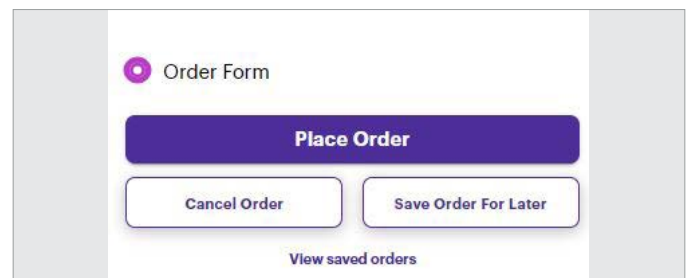

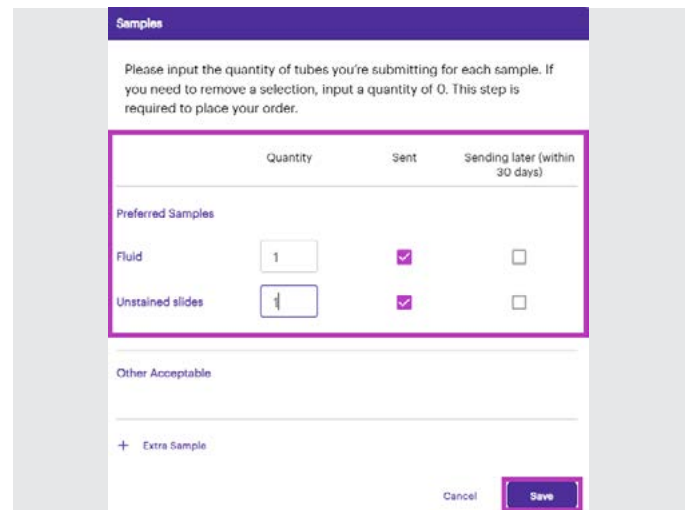

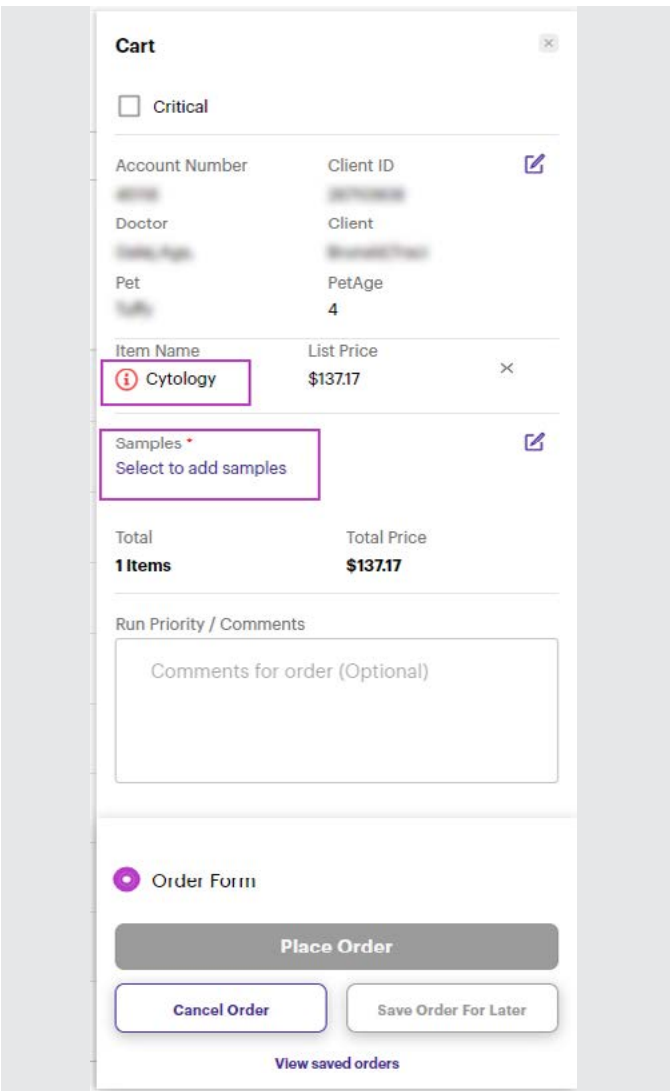

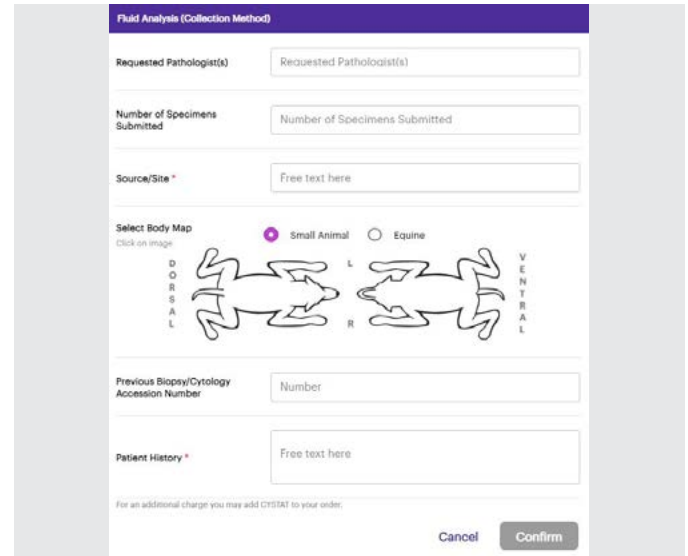

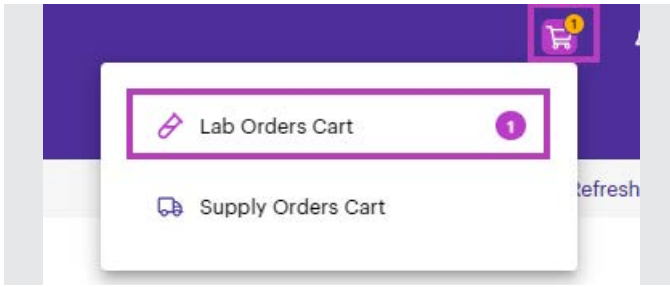

- Existing client and patient information will auto-populate. You can quickly edit erroneous information.

- New doctors on your staff? Simply add their details when placing an order.

- Orders can be left in your cart or saved until you are ready to finalize the order.
- HealthTracks orders can be canceled (if they have not been received at the lab).
- Easily reprint or download your lab order form.

Fully automated add-ons and recheck requests

The screenshot shows the HealthTracks web application interface. At the top, there's a navigation bar with 'HealthTracks' logo and various menu items like 'Results', 'Lab Ordering', 'Test Guide', 'Clinic Log', and 'Customer Services'. Below this, there's a patient information section for 'Lola' (Minmo Forsberg, Elizabeth Felina, American Curl, 10M, CM). The main area displays a list of tests under 'Superchem' and 'Complete Blood Count'. A 'Current Result Table' is visible, showing results for TOTAL PROTEIN, ALBUMIN, and GLOBULIN. A red box highlights the 'Add/Recheck Test' dropdown menu, which includes options for 'Add A Test' and 'Recheck A Test'.

Test Requested	Result	Reference Interval	Visual Ref. Interval
TOTAL PROTEIN	7.4 g/dL	5.2 - 8.0	
ALBUMIN	3.0 g/dL	2.5 - 3.9	
GLOBULIN	3.0 g/dL	2.3 - 5.3	

- Orders are quickly routed to our lab.
- Get peace of mind that your order was submitted successfully with our new confirmation number details and logged details.

Successfully Submitted Lab Request

Your Add on for Lola has been sent to the lab.
Your confirmation number is **666670066**. For any questions, please contact Client Services: **1 (800) 872-1001**

Quickly share results with our Client Communication feature

- Easily create a personalized pet owner friendly result summary.

Comments from Doctor

I wanted to share the new lab results for Django. Some values are abnormal as you can see from this report, please administer treatment discussed during the visit and we will reevaluate next month. Call us if anything changes.

How do you feel?

How do you feel about the new style of the report?

- Text or email option.

- Enabled for all customers, no longer need to sign up.
- Communications will be captured within your PIMS (if integrated).

Note: Additional steps will be required with Cornerstone as results will appear in your orphan list.

Two easy steps to access HealthTracks

1. Log on to Antech Online.
2. Click the HealthTracks banner at the top of your screen.
